Read Carefully: Imprint will deteriorate with washing and normal use and this is not considered a defect. INTENDED FOR DRY USE ONLY. Fine lines have a tendency to break and/or appear broken when printing on cloth materials. Some fine details may be lost during printing as well as fade quickly after printing. Imprint will deteriorate with washing and normal use and this is not considered a defect. Thin lines and fine type may be difficult to read or break up when printed on the fiber loops of this product and as a result imprint will vary from piece to piece. INTENDED FOR DRY USE ONLY. Also, cloth material size, shape, and colour, varies from cloth to cloth and order to order. Towels are intended for individual use and cannot be identical to each other. Colour variation cannot be considered a defect due to ink, lighting, material or any other variation. PMS colour matching is not possible for any imprint method, including screen print, pad print, PhotoImage® full colour direct, full colour label, transfer and sublimation. Please note: The dye-sublimation printing process uses a computer printer to generate a heat transfer to transfer the image onto the fabric. As a result, PMS inks cannot be matched exactly. They are only a reference point and an approximation. Factory will do it's best to match but cannot guarantee an exact colour match.

Repeat Setup Charge: 27.50 (G). Email Proof Charge: 7.50 (G), add 2 days to production time. 7.50 (G).

Important Information: Variations in print substrates/materials make it impossible to exactly duplicate PMS colours on Innovation Line products. PMS colour matching is not possible for any imprint method, including screen print, pad print, Photolmage @ full colour direct, full colour label, transfer and sublimation. PMS is only a reference point and an approximation. Laser engraving appears on actual item as tone on tone (as the laser engraving uses the laser to burn through the surface), on clear acrylic it appears white frost, on a proof laser engraving is most often shown in gray colour. Imprint will shift slightly when printed or lasered. Each product is manufactured and printed individually, so 3/16" movement in logo alignment may result and cannot be considered a defect in printing. Note on proofs: E Proofs are for logo placement and size approval only. The colours shown on e-proofs will not be accurately represented on monitors. Please note: Fine lines have a tendency to break and/or appear broken when printing on cloth materials. Some fine details may be lost during printing as well as fade quickly after printing. Imprint will deteriorate with washing and normal use and this is not considered a defect. Thin lines and fine type may be difficult to read or break up when printed on the fiber loops of this product and as a result imprint will vary from piece to piece. **INTENDED FOR DRY USE ONLY.**

Important Information: Variations in print substrates/materials make it impossible to exactly duplicate PMS Colours on Innovation Line products. Colour variation cannot be considered a defect due to ink, lighting, material or any other variation. PMS Colour matching is not possible for any imprint method, including screen print, pad print, PhotoImage ® full Colour direct, full Colour label, transfer and sublimation. PMS is only a reference point and an approximation. Each product is manufactured and printed individually, so 3/16" movement in logo alignment may result and cannot be considered a defect in printing. Note on proofs: E Proofs are for logo placement and size approval only. The Colours shown on e-proofs will not be accurately represented on monitors. "CustomCut™" Full Colour Custom Shape Removable Vinyl Stickers In Singles

Our CustomCut™ Stickers are made with a Professional Grade White 6 Mil Matte Vinyl Material with Removable Adhesive. Each Sticker is individually kiss cut to the contours of your logo design for easy peel removal. **No Die or Die Cutting Charges!** They come in individual singles for easy distribution. CustomCut™ Stickers are a premium product and an upgrade to thin paper stickers which come on a roll and are harder to distribute. Recommended for indoor use. Pricing includes up to a full colour PhotoImage® digital imprint. All Stickers require a 1/8" white border around the artwork design.

CustomCut™ stickers are sold by the square inch. To calculate the total number of square inches needed for your design, simply multiply the Length times the Width of your sticker size including an additional 1/8" white border. Please make sure your art file indicates the sticker die cut outline with the 1/8" white border so we understand how you want the finished sticker to look. Please check our website for complete art instructions. Not intended for children 12 years and younger.

Packaging: Bulk packed in singles. **Material:** 6 Mil Matte Vinyl with Removable Adhesive.

File formats: Within our line of products, different items are available in different printing methods. The requirements for each method are as follows:

For **SPOT Colour PRINTING** (Screen, Pad) or **LASER ENGRAVING**, we require files in Vector EPS format, with type outlined (solid colours only, no halftones or gradations).
